BEHAVIORAL HEALTH

IntraCare ... caring "within"

INTRACARE HOSPITALS

To provide high quality, ethical and cost effective services in a safe and responsive environment.

~ Mission Statement

IntraCare Medical Center Hospital and IntraCare North Hospital are not-for-profit, private psychiatric hospitals.

Each hospital provides a continuum of behavioral healthcare services for children, adolescents and adults. We strive to create an environment of respect for our patients' rights and dignity. Our commitment is to treat patients in the least restrictive environment possible.

PROGRAMS

- **INPATIENT TREATMENT PROGRAM:** for those individuals who require 24 hour care in a highly structured environment. The focus of treatment is on crisis intervention, stabilization and assessment of the patient's needs. The treatment team, led by a psychiatrist, provides services that may include individual, family and group therapies, education groups, recreational therapy, relapse prevention and discharge planning. A school is available for children and adolescents.
- **DAY TREATMENT PROGRAM:** provides six to eight hours of programming per day. Services may include individual, family and group therapies, education groups, relapse prevention and process groups. It is a more structured program than traditional outpatient therapy and may be used as an alternative to hospitalization or as a step-down program upon discharge from the hospital.
- **INTENSIVE OUTPATIENT PROGRAM:** programming is similar to that of the Day Treatment Program, but provides services an average of 10 to 15 hours per week.
- Any program may serve as the point of entry or as a transition from another level of care.
